## Contour spacecraft scheduled for launch Monday

The launch of NASA's Comet Nucleus Tour (CONTOUR) spacecraft is scheduled for Monday. Liftoff will occur aboard a Delta II launch vehicle from the Cape Canaveral Air Force Station. CONTOUR will offer the first detailed look into the heart of a comet -- its nucleus. The spacecraft will fly as close as 62 miles from at least two comets, taking the sharpest pictures yet of the nucleus while analyzing the gas and dust surrounding the comets.

## June is 'National Safety Month'

**For Performance Evaluation Profile Survey information, go to SHE Web site on 'Inside Marshall'**

## Children's parade set for Monday

The Marshall Child Development Center invites all Marshall team members and retirees to a parade Monday. Development Center students will parade around Solar Circle and Mercury Road beginning at 10 a.m. and throw candy at spectators. The children will be dressed in patriotic red, white and blue.
